

Rosacea is a chronic skin condition that affects the central region of the face and is often characterized by sudden flare-ups which tend to then fade over time. It typically manifests as redness which can be accompanied by a sense of heat, warmth and burning which comes and goes. Red bumps can often develop along with puss-filled spots which can have a burning and stinging sensation. Inflammation and itchiness are also common symptoms of Rosacea. The areas of the face affected the most by Rosacea include the forehead, cheeks, chin and nose.

Here at Nativis, we have developed a range of Skincare products to help manage Rosacea. The products are 100% natural in composition, and all contain a natural active ingredient derived from Sericin which we have called Silk Hydra-Fix®. This active ingredient rapidly calms itching and inflammation through deep hydration and moisturisation of the skin. It will also relieve any tightness and reduce the redness substantially with regular use. Continued use of the Gel should bring rosacea under control. The Moisturising Gel is non-comedogenic and so it will not block pores. It also has strong anti-bacterial/anti-microbial properties. Positive results should be observed using the products described in this package after 1-2 days and should improve significantly with continued use.

Products Package for Rosacea

Silk Hydra-Fix Soap (75g) Directions for Use - Wash First

1. Wet the affected area with warm (not hot) water.
2. Build up a lather with the hands - apply to affected area through gentle massaging with fingers.
3. Rinse with warm (not hot) water.
4. Dab dry with a clean natural fibre (Cotton for example) towel.

Silk Hydra-Fix Moisturising Gel (200g)

Directions for Use - Hydrate and Moisturise the Skin

1. Apply a small quantity of the Gel to fingertips and gently massage into the affected areas until the Gel has absorbed.
2. For severe Rosacea, repeat the Gel application a second time.
3. Apply the Gel in the daytime as required if discomfort is felt in the affected areas of the face.

Package Price £26.10 - SAVING 10%

Repeat above procedure daily for best results. Improvements should be seen within a 1-2 days with the inflammation/redness/itchiness/heat rapidly suppressed. The Gel can be applied as often as required in the daytime/night time to calm any discomfort felt. Continued use of the Gel in particular should provide a significant improvement to those areas affected by Rosacea.
